Centre Punch

Typically used as an aid to drilling operations. A drill will have a tendency to wander on the surface until it gains sufficient purchase to start cutting a hole.

Nail Punch

A nail punch is a short steel rod, usually tapered; used to drive a nail or brad below, or flush with, a wood surface.

Pin Punch

A pin punch is used as a driving tool, typically, as the name implies, to drive pins that are used to affix a fixture to a rotating shaft.

Cold Chisel

A cold chisel is a tool made of tempered steel used for cutting 'cold' metals and are not used in conjunction with heat. Cold chisels are used to remove waste metal when a very smooth finish is not required.

Punches Carbon Steel

Made from high quality carbon steel.
The point is hardened and tempered to withstand continuous use.
All punches have well cut knurling to provide positive finger grip.

Pliers Self Adjusting, Lockjaw

These pliers provide the versatility of a standard plier plus more. Traditional pliers require two hands to adjust the jaw open. Lockjaw™ self adjusting capability makes jobs faster and easier.

A. Curved Jaw: Lockjaw curved jaw pliers are innovative, heavy duty and time saving tools, built for professionals.

B. Straight Jaw: Lockjaw straight jaw pliers are innovative, heavy duty and time saving tools, built for professionals.

C. Needle Nose: Long heavy-duty gripping nose provides excellent control and reach for work in confined spaces.

D. C-Clamp: Wide opening jaws provide greater versatility in clamping a variety of shapes.

Swivel C-Clamp: Wide opening jaws with swivel pads which allow parallel clamping while preventing denting or gouging on delicate surfaces.

E. Extended Reach Clamp: Similar to the C-Clamp, these pliers offer a deeper throat for extra reach.

Swivel Extended Reach Clamp: Swivel pads allow parallel clamping while preventing denting or gouging on delicate surfaces.

F. Welding Clamp: For use in welding applications or for holding awkward shapes in place. Forked jaws provide greater visibility.

G. Table C-Clamp: Ideal for clamping objects to tables or work surfaces while drilling, cutting, grinding or other workshop tasks. Can be fixed to a machine T-Slot table for moving into the ideal position or securely bolted.

H. Sheet Metal Welding Clamp: Ideal for securing flat sheets of metal for welding or other work. Spreads the clamping pressure to avoid damage on soft materials. Clamping action can be customized to the material thickness by adjusting the bolt.

[▲]Not self-adjusting automatic.

Clamps Lockjaw

Lockjaw clamps provide intelligent designs with user friendly characteristics, making them the choice for industrial workers, professionals and DIY users

A. One Hand Dual Clamp:

- Changeable pads between V-grooved or flat TPR grip pads for clamping different objects without marking
- Nylon composite clamp body with strengthen carbon steel bar
- Maximum clamping force up to 200kgs

B. Ratchet Clamp:

- Patented ratchet mechanism with easy release trigger
- V-grooved swivelling pads
- Nylon composite body

C. Parallel Clamp:

- Light weight smooth carbon steel bar and aluminium body
- Easy conversion into spreader without additional tools
- Large TPR grip pads
- Maximum clamping force up to 400kgs

FORGED SINCE 1886.

We can't be certain on what day back in 1886 George DeArment loaded up his wagon with hand-crafted tools that he had made and set out from Evansburg, PA, to sell his wares. Likely, it was in the spring, after the muddy roads had hardened enough to allow a heavily laden wagon to pass.

But this we do know: what George DeArment put in motion that unnamed first day has not only lasted but prospered for the decades that followed.

Through five generations, we owe our success in no small measure to the guiding principles that George would later pen and put into practice:

- 1. Good management is never far from the factory floor.**
- 2. People count more than machines.**
- 3. Bigger does not always mean better.**
- 4. Dedication to excellence is the surest way to surmount adversity and to prosper.**

Channellock, Inc. is a company that has stood the test of time by making tools that do the same. Our tools, our values and our name are built to last.

Not a bad start. Not too bad at all.

Pliers Long Nose

CHANNELLOCK® Long Nose Pliers are engineered to operate in tight spaces. A crosshatched teeth pattern provides reliable grip in either direction, while a narrow nose profile provides extra precision.

Crosshatch Pattern On Jaws
Grips work tightly

Precision Machined Knife And Anvil Style Cutting Edges
Ensures perfect mating and superior cutting edge life.

High Carbon Steel
For superior performance and specially coated for ultimate rust prevention

Laser Heat-Treated
For longer lasting cutting edges

Snip Aviation, Straight

Get the power of precision. CHANNELLOCK® snips make cleaner wide left, right, curved and straight cuts with minimum effort.

Custom Heat-Treated Blades
Precision machined to last longer, and with 40 serrations per inch for non-scarring grip on material

18 ga.
CR STEEL
22 ga.
STAINLESS

Precision Cutting
Cuts wide left and right curved and straight with ease in either hand

Drop-Forged Molybdenum Alloy Steel
Cuts 18ga cold rolled steel and 22ga stainless, and 8:1 compound action for maximum cutting power with minimum effort

Double Overwind Spring
For long-lasting durability

Comfort Grips
Designed for durability with high tensile steel handles

Product Group: Z1001

CARBITOOL

MEASURING TOOL RANGE

Carbitool's measuring tools are engineered to meet the diverse needs of woodworking workshops and projects. Elevate your work with tools you can trust for reliability, durability, and unparalleled accuracy.

Measuring Tools Square

Designed for easy marking of angles commonly used in woodworking applications. Precision Machined 6061 Grade Aluminium Construction – Provides highly accurate measurements and longer tool life.

Diamond Marking Holes
Ensures marking tool remains centred.

Hook Lip
Keeps the square stable when marking and measuring.

Product Group: Z0950

Description	Item #	Barcode
Precision Woodworking Square		
250mm	CBMBH0250	9314350048638
300mm	CBMBH0300	9314350048645

Measuring Tools Carpenter Square

Designed for accurate measuring and marking in woodworking applications. Precision Machined 6061 Grade Aluminium Construction – Provides highly accurate measurements and longer tool life.

Scribing Indents
For marking of 10mm increments. Can easily be used with common carpenters pencils.

CNC Machined
Ensures accurate layout of 90° and 45° angles.

Adjustable Handle
Allows re-calibration.

Product Group: Z0950

Description	Item #	Barcode
Carpenters Square		
175mm	CBMAH0175	9314350048706

Measuring Tools Layout T-Square

Designed for accurate measuring and marking in woodworking applications. Precision Machined 6061 Grade Aluminium Construction – Provides highly accurate measurements and longer tool life.

Bevelled Edge
For easy transfer of measurements.

Millimetre Pattern Holes
For detailed marking* and layout.

*Use with 0.9mm mechanical joiners pencils.

Product Group: Z0950

Measuring Tools Measuring Rule

Designed for accurate measuring and marking in woodworking applications. Precision Machined 6061 Grade Aluminium Construction – Provides highly accurate measurements and longer tool life.

Removable Hook Stop
Keeps the rule square when marking, and allows fast referencing from the workpiece edge.

Bevelled Edge
For easy transfer of measurements.

Product Group: Z0950

Description	Item #	Barcode
Measuring Rule - Hook Stop		
50mm (pocket)	CBMHH0050	9314350048690

Measuring Tools Multi-Function Square Set

Designed for marking, clamping, and squaring-up in woodworking applications. Precision Machined 6061 Grade Aluminium Construction – Provides highly accurate measurements and longer tool life.

Relieved Internal Radius
To protect outer corner of workpiece.

Machined Slots
For internal and external clamping.

Product Group: Z0950

Description	Item #	Barcode
Multi-Function Square Set 120mm x 2 (Includes: Aluminium Angle Squares x 2, Screw Clamping Blocks x4)	CBMGS0150	9314350048713

Measuring Tools

Engineer Ruler

- Made from stainless steel
- 1mm and 0.5mm graduations
- Conversion charts on the back of the ruler

Engineer Squares

- Made from stainless steel
- Carbon steel handle
- Precision 90°
- Plain type and 1mm graduations (option)

Carpenters Squares

- Made from hardened steel, resists corrosion and warping
- Permanent black finish with accurate and clear white graduation.

Alloy Squares

- Made from aluminium alloy
- Graduated scale both sides
- Metric and Imperial measurements

Calipers

- Made from high carbon steel
- Quick adjustable screw bar
- Easy hold handle on top

Engineers Scribers

- Made from stainless steel
- Knurled aluminium handle
- Tungsten carbide point (267M06041)
- Convenient pocket clip (267M06041)

Auto Centre Punch

- Made from brass
- Spring loaded, no hammer required

Magnetic Pick-Up Set

Two colour driver handle with quick chuck and 4mm driver, 90mm full hook, 90mm angle hook, 90mm straight hook, 90mm 90° hook and magnetic telescopic pick-up tool

Combination Square 3 in 1

- Made from stainless steel
- Mitre square, spirit level, plumb level, 45° level, height gauge, steel rule, straight edge and scribe

Template Tool - Metric / Inch

- Great layout tool for creating complex shapes and angles
- Easy to make repeat cuts on arches and joists
- Can be set to mark bricks, tiles, timber, laminates and more.

Measuring Tools

Precision engineering tools.

Maximise job site efficiency with our P&N® Utility Knife range, engineered for durability. Ideal for demanding environments, it delivers professional-grade precision ensuring every cut is both safe and accurate. Ideal for: Cardboard, rubber, leather, linoleum, rope, and DIY projects. Rigorously tested: Ensuring quality and reliability

Precision-honed edge
Faster cutting and extended lifespan.
50° cutting angle for uniform force and reduced breakages.

The lifetime warranty for the P&N® Knife range ensures that you are protected against any defects in material and workmanship for the duration of the product's life. However, it is important to note that this warranty is only valid when the knife is used in accordance with the safety instructions.
